GATSBY

2021 SANLORENZO SL96A

96' / 29.26M | 4 STATEROOMS | 8 GUESTS

VESSEL OVERVIEW

Sanlorenzo volume. Miami-ready utility.

GATSBY is a 2021 Sanlorenzo SL96A, a 96-foot asymmetric motor yacht that turns a radical layout idea into real owner utility.

The SL96A routes the port-side passageway through the superstructure, preserving the starboard side deck while reclaiming approximately 10 m2 of main-deck interior volume.

Delivered by Sanlorenzo in La Spezia and finished with a custom Marty Lowe Design Inc. interior, GATSBY pairs contemporary Italian architecture with a U.S. duty-paid ownership profile.

96' LENGTH	22'3" BEAM	2021 YEAR	4 STATEROOMS	8 GUESTS	\$7.39M ASKING
----------------------	----------------------	---------------------	------------------------	--------------------	--------------------------

Why GATSBY stands apart.

Asymmetric SL96A Platform

A starboard-only side deck and elevated port-side circulation recover approximately 10 m² of main-deck volume.

Marty Lowe Interior

The factory Laura Sessa Romboli interior was replaced during commissioning with a custom Marty Lowe Design Inc. program.

Duty-Paid U.S. Vessel

U.S. flagged, duty paid, and currently based in Miami Beach with full-time captain and crew.

Four-Stateroom Plan

Accommodates eight guests across four ensuite staterooms, with forward crew quarters for five.

MTU Performance Package

Twin MTU 16V 2000 M86 engines deliver a 22-knot cruise, 28-knot top speed, and efficient long-range operation at displacement speeds.

Modern Tech Stack

Garmin navigation, CMC zero-speed fins, Side-Power bow and stern thrusters, Starlink, Pepwave, Crestron, and Sanlorenzo monitoring.
