

The Beast

Length 39.2m Guests 12 Built 2019 493 GRT

The Beast

Winner at the World Superyacht Awards 2020: Best Displacement Motor Yacht under 499 GRT, The Beast is an expedition yacht like no other. Big, bold, and built for adventure, The Beast is designed to explore where few can go. She's remarkably stable and offers an experience as exciting as it is luxurious. Key features include her 13m custom-built luxury sport fishing tender, an amphibious tender, full dive gear for up to 12 guests, and an enviable inventory of fishing equipment. With 4000 square feet of stylish guest spaces designed by Oceania Interiors, The Beast comfortably accommodates up to 12 guests and 9 crew, creating a sumptuous home for adventures across the Pacific.

The Beast offers the volume of a 50m+ yacht while maintaining excellent fuel efficiency and a shallow draft thanks to her intelligent hull design, allowing her to explore shallow anchorages and undertake long-range journeys with ease. Her 13m luxury sport fishing tender, affectionately called "The Baby Beast", is a true game changer and enhances the guest experience. Carried on deck, she can accompany The Beast wherever she ventures and go even further for more intricate explorations.

The Baby Beast features a well-appointed cabin with twin beds, a full ensuite bathroom, a sheltered seating and dining area, a small galley, and a bar. Whether it's sport fishing, dive trips, surfing, watersports, or exploring remote locations, The Baby Beast is fully set up so that guests can continue to enjoy every luxury while participating in their favourite activities.

The mothership has a volume of a 50m at 493 GRT and 4000 square feet of guest living space, offering plenty of private nooks and multiple dining areas. Purpose-built for cruising New Zealand and the Pacific, The Beast provides unparalleled stability and comfort—ideal for big families or groups seeking to explore this unique region. When it comes to adventure and luxury in the Pacific, there's no better choice than The Beast. She was literally built for it.
